AUGUST 2017

SPOTLIGHT ON SEABOURN

ROUTE OF THE VIKINGS 2018

The Vikings were essentially farming people that did a bit (well a lot!) of pillaging on the side, searching for better land, cattle and riches; they had a seafaring audacity that took them from one side of the Atlantic to the other over 1000 years ago. Their boats were strong, versatile and flat bottomed so they could be hauled up on the beach or small enough to sail up rivers. Perhaps the Vikings pioneered the benefits of small ship cruising. Seabourn, are masters of small ship cruising, and one of their most popular itineraries for the NZ market is Route of the Vikings, the 2018 departure is more cutting edge than ever.

Seabourn Quest, with just 450 guests on board, has an ice strengthened hull and offers unbound luxury on board and an elegant adventure ashore. Seabourn Ventures enables exploration by zodiac and kayaks and Seabourn Conversations, the on-board enrichment program will ensure an immersive and engaging cruising experience.

The journey starts in Dover and sails up the Irish Sea for some Celtic culture in Scotland, island hopping along the outer Hebrideans, Orkneys, Shetlands and Faroe Islands before a half navigation around Iceland. Magnificent scenery and wildlife abounds, small fishing villages, botanical gardens in Akureyri, a Nordic church in Greenland where a Viking wedding was held, a taste of the North West passage at Akpatok and Lady Franklin Island, inhabited by no-one except polar bears and other wild-life, before heading down the spectacular Labrador coastline, stopping L'anse Aux Meadows New Foundland, a Viking settlement 1000 years ago and some stunning ports with French names through to Montreal timing perfectly with fall foliage.

Une magnifique expédition..
