

**TRADEWIND**  
VOYAGES

*The Ocean's Journey*

# A New Way to See the World

We operate the world's largest square-rigged sailing vessel, Golden Horizon. She is a five-masted barque and near replica of France II, a 1913-built ocean vessel designed to carry bulk dry cargo.

Able to carry up to 272 passengers, Golden Horizon has the on-board luxury and facilities of a boutique cruise ship, whilst retaining the charm, adventure and romance of a truly historic sailing vessel.

Golden Horizon is the first of a fleet of ships that will take our guests on unforgettable adventures around the world.

*"I am delighted that we are able to share the story of Tradewind Voyages with you through this brochure. The whole team here are very proud of our majestic ship and of the fabulous product we are creating around her.*

*Our philosophy is simple but unique; we will follow the sun, using the winds and the currents, to take us to magical beaches and port destinations in the luxury of a classic but contemporary ship. The starting point of our itinerary planning is to look at what the prevailing winds and currents are doing around the world over the course of the year. This way, our itineraries are truly led by nature in the same way that the ship is powered by nature. We are confident that this will resonate with our guests, as will our wide-open decks and remote sailing areas, particularly as the world emerges from the challenges of this year."*

**Stuart McQuaker**

# An Adventure Like No Other

Our philosophy is to sail as much as possible, allowing guests to connect with the elements in a way that is different from any other cruise ship of this size.

Each of our voyages takes guests to iconic destinations and unique parts of the world, including small bays and beaches in between port calls. Guests have the freedom to explore ashore or remain on board and use the ship as a wellbeing destination – taking advantage of the luxurious facilities and activities on offer.

## Our Ship

Golden Horizon follows the tradition of the square-rigged vessels of the 19th and early 20th century – the Tea Clippers and Cape Horners that plied their trade around the world carrying precious cargo. Today that precious cargo is our guests.

The ship is a five-masted barque, designed and built to meet the latest stringent regulations. We attract like-minded adventure seekers to sail on Golden Horizon, giving them an opportunity to connect with the elements of the natural world.

We believe ocean voyages should be powered by nature. That's why we intend to sail without using propulsion engines for around 70% of each season – making for a true sailing experience.

Combining historical influences with contemporary style, we offer the highest standards of dining, accommodation and entertainment; providing an on-board experience befitting of the ship's grandeur.

# Our Voyages

Our voyage planning starts with a review of the prevailing winds, currents and weather conditions in whichever region of the world the ship is located. From this we determine the general direction of travel, ensuring we follow the winds and currents for the majority of the time, in order to capitalise on the ship's excellent sailing credentials.

We then seek out the most iconic destinations and remote beaches and plot our course. Inevitably this process guides us round the world in a different way, frequently following the traditional tall ship routes made famous by the intrepid merchants of the past.

Our routes are governed by where in the world we are, embracing three distinct categories:

## Hidden Beaches

Our voyages will take guests to some of the most beautiful and undiscovered islands in the world. They include beach days and surprise stops where we lower the marina platform, giving guests the chance to make use of snorkels, sailing dinghies, kayaks, water skis and more.

## Cultural Immersion

Whether you wish to experience the sights of Colombo, Mumbai and Brunei or visit the temples of Porbandar, we take pride in delighting our guests with a shore excursion programme that will ensure full immersion in each destination.

## Tall Ship Sailing

Some of our voyages will involve longer days at sea, bringing the magic of tall ship sailing to life. We encourage guests to take the ship's wheel and to experience the awesome sensation of helming the ship under full sail.

# British Isles, Ireland & Northern Europe Voyages

## Introducing Golden Horizon

As an island steeped in seafaring heritage, what better departure point is there to experience a ship like Golden Horizon for the first time than the UK? From May to August 2021, we will be offering nine individually tailored voyages, seven departing from Harwich and two from Glasgow, each marrying the romance, drama and history of the elegant tall ships with dramatic Northern European coastlines and culturally rich destinations.

We introduce Golden Horizon through an inaugural season of voyages, discovering the British Isles and Ireland. Breaking the circumnavigation, our first taste of Northern waters takes us around Iceland. Later we make a spectacular 21-night voyage to discover the midnight sun at the North Cape, visiting numerous remote communities, nestled in the Norwegian Fjords. And now into the Baltics, we head to St. Petersburg for a two-day visit before meeting up with the tall ship race in Tallin. Amongst our many visits, an overnight stay in Stockholm and the beautiful cities of Helsinki and Gothenburg provide a dramatic backdrop for our majestic ship.

A real highlight of our introductory season, is our British Maritime voyage, which sees Golden Horizon taking pride of place at anchor off Cowes for the Regatta fireworks display. This voyage takes us to traditional maritime communities along the south coast, the Scilly Islands and the Channel Islands.

Two further and very individual Fjord adventures, will give guests a choice of either exploring remote fishing villages or to take part in a marina and water sports focused week. We culminate the Northern European season with a voyage aptly titled Beautiful Demark; Golden Horizon then follows the coastlines of France, Spain and Portugal entering the Mediterranean through the Straits of Gibraltar en-route to Dubrovnik.

From September 2021 our voyages will take us to the other side of the world, allowing us to focus on our philosophy of using the wind and the currents to take our guests on unforgettable voyages. Golden Horizon starts this adventure by taking passage East through the Suez Canal, following the ancient and exotic Maritime Silk Route.

# The Maritime Silk Route

## The Itinerary

True to our philosophy of using the wind and the currents to follow the sun, it became inevitable that nature would lead us to follow the Maritime Silk Route. The journey goes back to the period between the 2nd century BC and 15th Century AD. Our Maritime Silk Route combines voyages to iconic destinations, remote islands and beaches.

### *Dubrovnik to Sharm El Sheik*

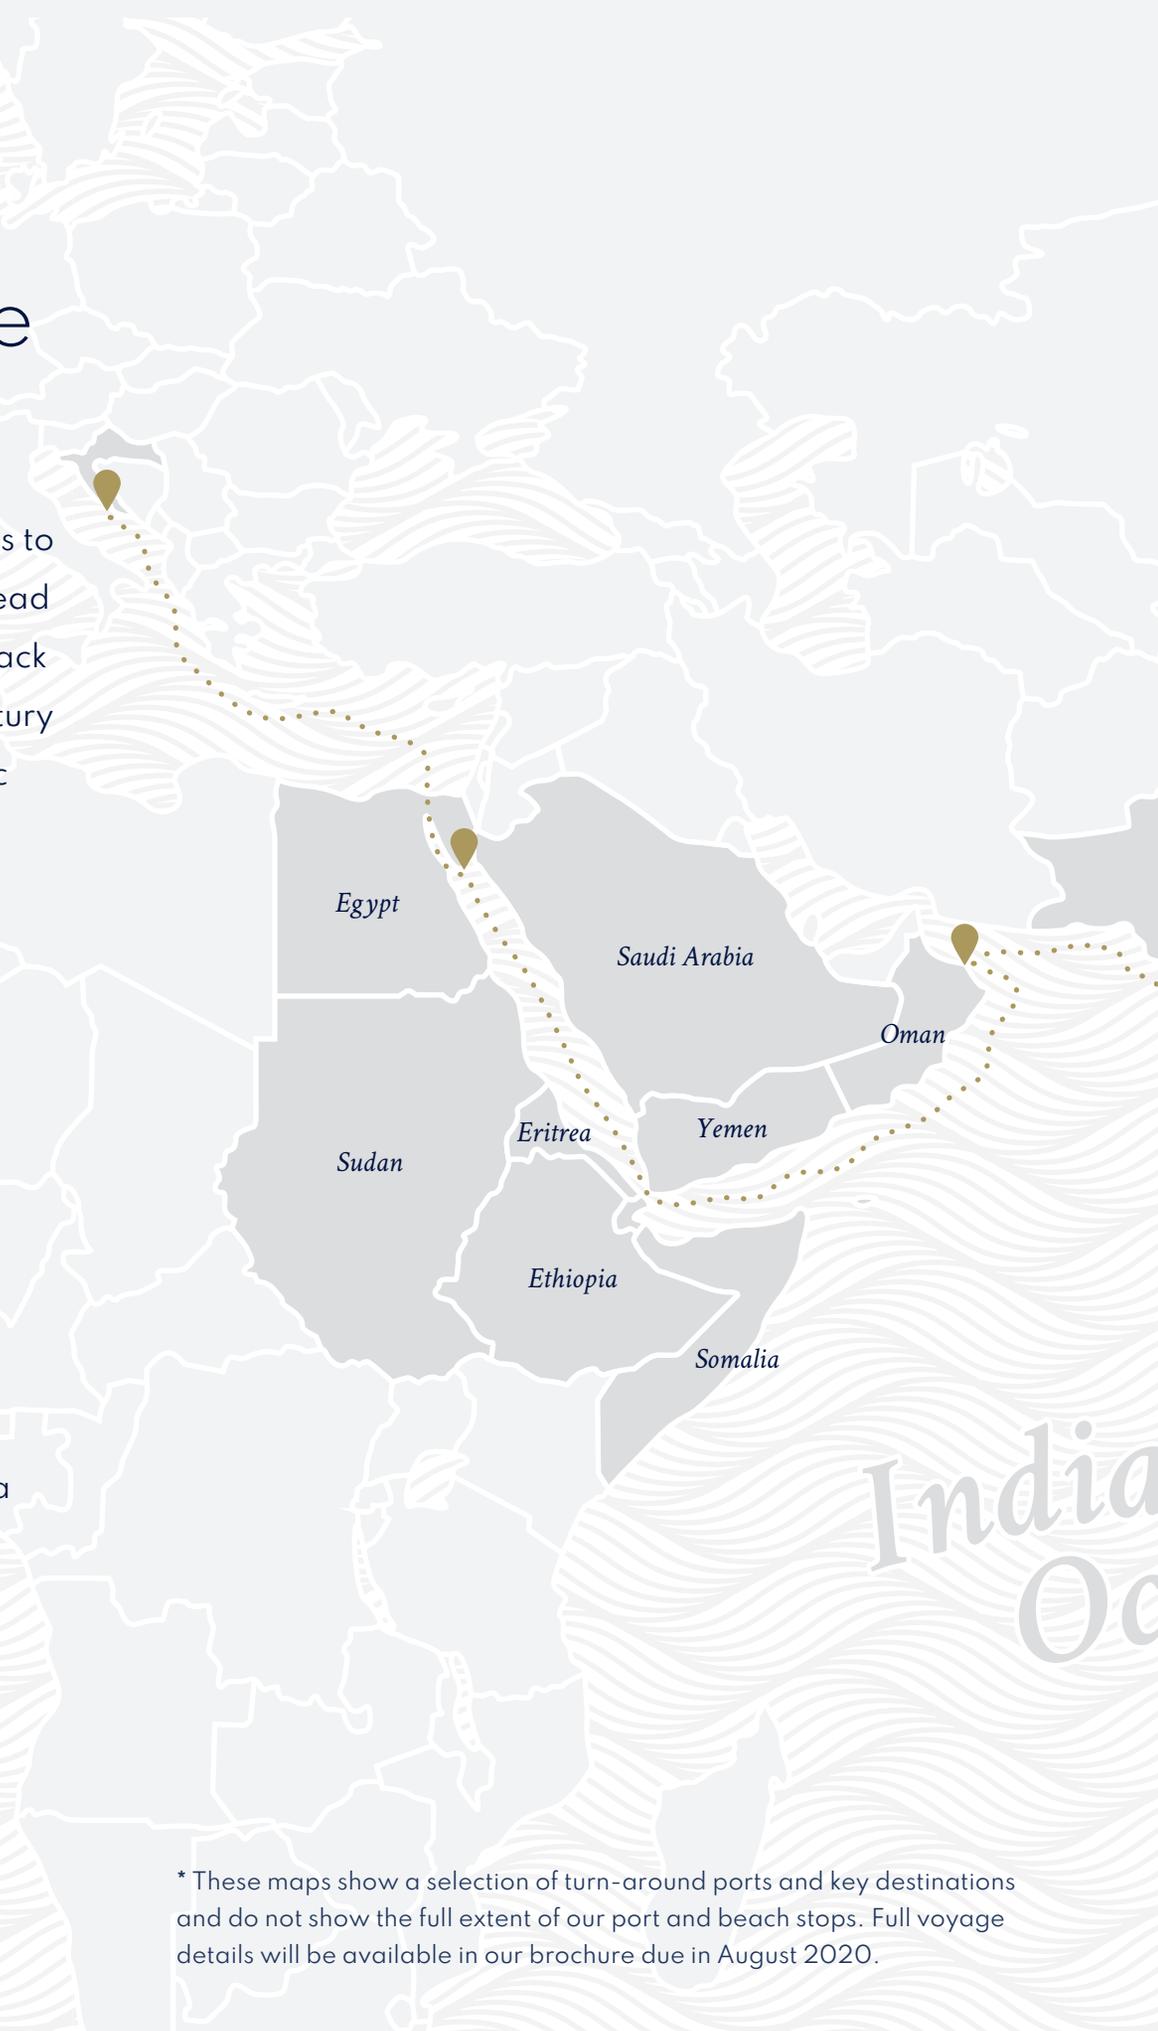

Setting sail from Croatia, you'll experience the Greek island delights of Kefalonia and Crete whilst we make our way to Alexandria. Our voyage takes us through the wonder of the Suez Canal before arriving in the Red Sea to explore Sharm El Sheikh.

### *Sharm El Sheikh to Muscat*

Experience the sights and sounds of Egypt, Saudi Arabia and Oman while sailing through the Gulf of Aden.

### *Muscat to Goa*

An Arabian Sea adventure that follows the west coast of India, discovering the many delights of Porbandar, Mumbai and Ratnagiri, en-route to Goa.

### *Goa to Colombo*

Continuing down the West Coast of India, we capture the finest stretches of Goa and Kerala's undulating yellow beaches before navigating the Laccadive Sea to Colombo, Sri Lanka's vibrant capital city.

### *Colombo to Singapore*

After exploring the Bay of Bengal, we take passage to the Andaman Islands and then experience Thailand's beautiful islands, finally arriving in Singapore, a city where nature and urban beauty intertwine.

### *Singapore to Jakarta*

As we leave the bustle of Singapore travelling west of Borneo, we visit Benua, one of the main islands in the archipelago. En-route to Jakarta we visit four idyllic islands with our last stop at Penyabong Beach, Belitung; a serene location with stunning white sands and rock formations.

### *Jakarta to Bali*

Departing the cultural melting pot of Jakarta, we set sail in the Java Sea. One of our stops is the naturally beautiful Sowan Beach, which gives our guests time to slow down before arriving in the thriving Surabaya. We then make our way to Bali, taking in carefully-selected island stops.

## Subsequent Voyages

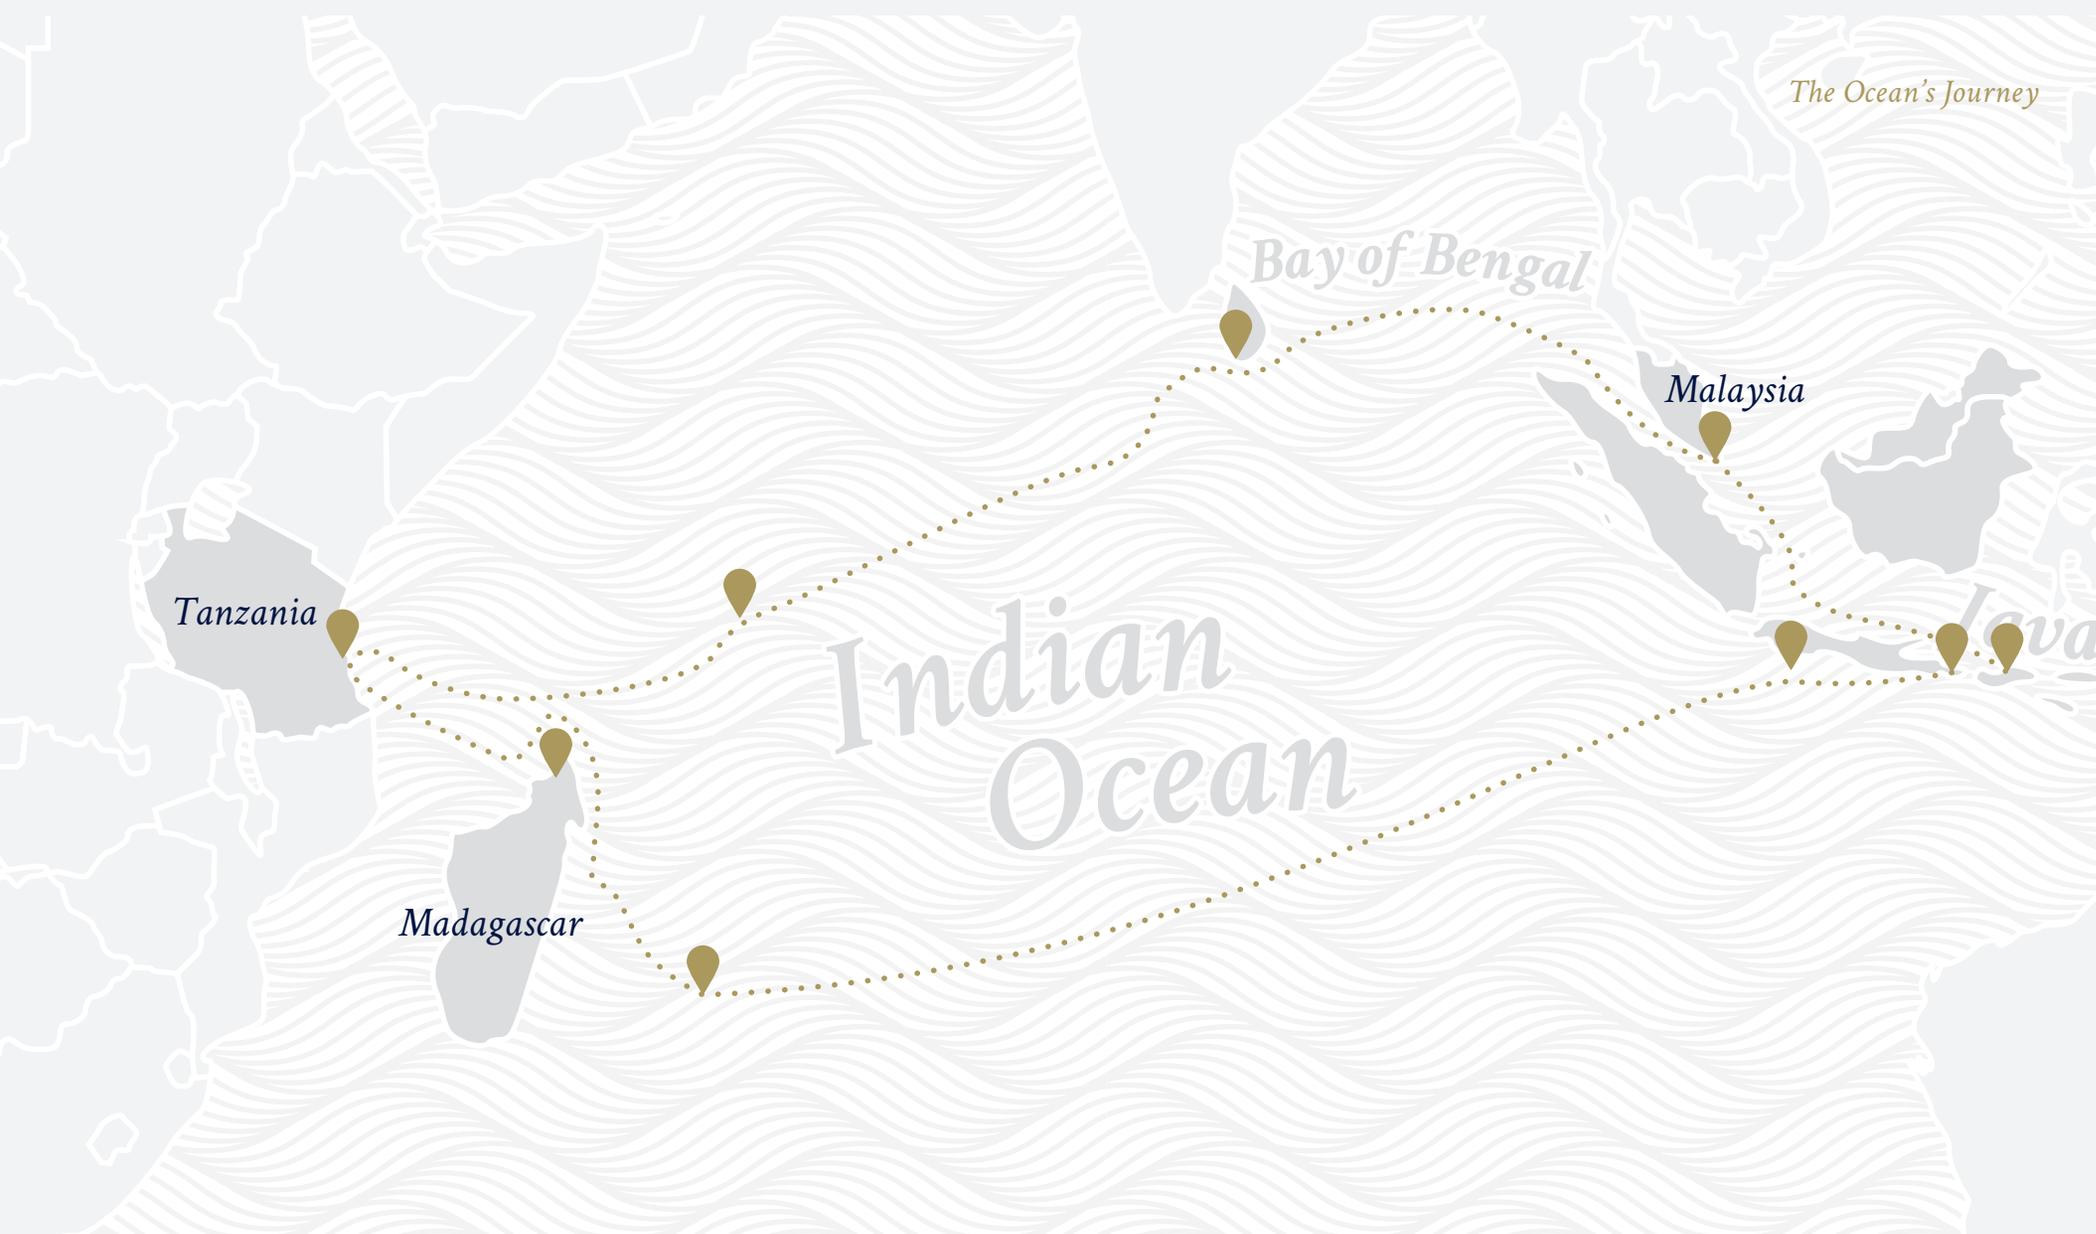

Our subsequent voyages are currently being planned on the basis of the prevailing winds and currents.

## Australia Circumnavigation

Our circumnavigation of Australia begins in December 2021. Celebrate Christmas at the Great Barrier Reef and see in the new year whilst watching fireworks off the Gold Coast.

Our Australian voyages offer guests the opportunity to visit iconic ports such as Sydney, Melbourne and Perth and to experience the hidden gems of the Whitsunday Islands and Tasmania. The amazing wine regions and wildlife of WA are certain to be highlights of the adventure.

## Indian Ocean

The winds in the Indian Ocean follow a clockwise rotation and the East to West route from Bali to Mauritius will offer spectacular Tradewind sailing of exactly the sort the later Square-Rigged ships were built for. Voyages from Mauritius take us North via Madagascar and East Africa. The more gentle Westerly winds then take us between the Seychelles and the Maldives and on to Sri-Lanka and Singapore. All along this ocean circumnavigation, guest will have the opportunity to explore rarely visited beaches and coves.

Please check [tradewindvoyages.com](http://tradewindvoyages.com) for updates as we continue to plan our voyages.

\* These maps show a selection of turn-around ports and key destinations and do not show the full extent of our port and beach stops. Full voyage details will be available in our brochure due in August 2020.

## Relax & Unwind

At Tradewind Voyages we encourage a blend of relaxation and excitement. Enjoy the sense of momentum and drama as the rigging strains and the sails drive the ship forward whilst, at the same moment, finding time for a period of solitude and peace in your own secluded corner of our expansive decks.

Throughout their voyage, our guests will experience enrichment and wellbeing programmes whilst dining in classic, contemporary grandeur.

We adhere to the highest health standards and demands of our new world, benefitting from open decks, small passenger numbers and visits to remote locations.

All cabins enjoy an ocean view, whilst our deluxe cabins and suites benefit from private balconies. Cabin interiors offer guests a place to relax in contemporary luxury, with traditional features and furnishings which are a tribute to the nautical heritage of a tall ship. Guests can unwind in our on-board spa or relax by reading in the library, which overlooks the wake of the ship. Yoga and fitness classes can be enjoyed on the fore of the Sun Deck, and the gym is available for those wanting a workout.

## Savour the Ambience

We have two outside bars, both offer stunning views, and a piano bar which is perfect for enjoying a drink with new friends. Elsewhere, our premium beverage bar, Debeljak's, is stocked with some of the world's finest gins and whisky.

A resident destination speaker will provide guests with engaging insights, specifically related to the voyage and ports of call. This will include geographical, historical and cultural background specific to the itinerary. Visiting speakers will cover subjects ranging from maritime history to astronomy.

Our resident pianist and musical duo will entertain guests with a repertoire ranging from jazz/swing to contemporary music. They will ensure our music compliments the ambience on-board, inviting guests to dance away the evening. As we travel the world, local shows, dancers and singers will help to immerse our guests in the local culture.

Throughout any voyage, the on-board cruise team will work to develop a full programme of activities which will likely include wine tasting, cooking demonstrations, upper-deck games, movies under the stars and quizzes.

## Eat Well, Be Well

At Tradewind Voyages, we will offer outstanding food and service. On-board dining offers something for all tastes and preferences, including healthy eating, sustainability and wellbeing. Alongside classic dishes, we will always seek to use local fresh produce to create menus relevant to the region.

Breakfast, lunch and daytime offerings can be traditional or light and fresh; there will always be dishes with a local flavour. Our buffet selections are designed to ensure that the most stringent health and safety standards are met.

One of the highlights of the day will be a full-service dinner served over two levels in our spectacular main dining room. A selection of wines and beers are complimentary during meal hours in the main dining room for lunch and dinner. More casual open-air dining is offered at the Horizon Bar.

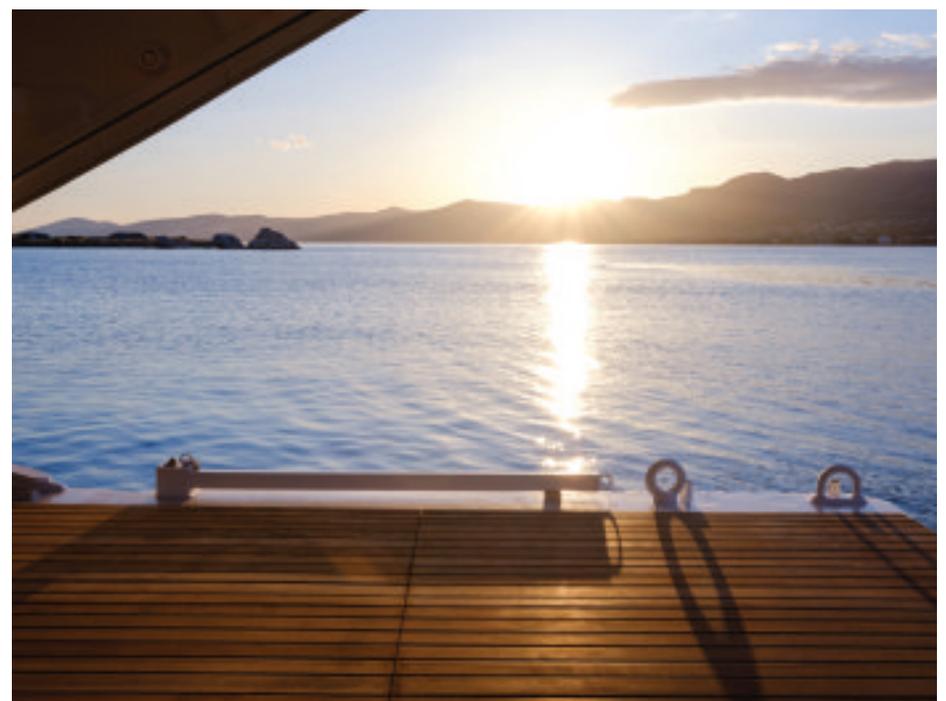

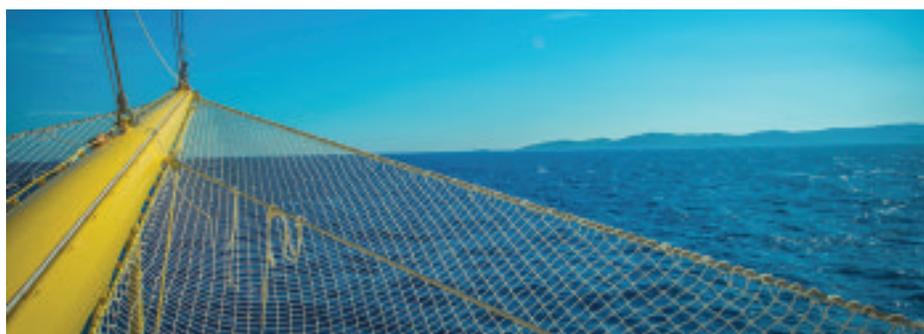

# Enjoy the Ocean

Our marina platform at the stern is a focal point for many of our voyages, providing access to water sports equipment which includes kayaks, sailing dinghies, water skis and wakeboards. Guests will also be able to enjoy swimming and snorkelling from the marina.

Many voyages will include beach days and surprise stops, where the on-board water sports team will set up the equipment, with refreshments close at hand.

We have three swimming pools on board, one of which is our deep dive pool where you can practice scuba diving skills and drills, aimed at both the beginner and more experienced divers. Our on-board dive master is always available and will support guests as they develop these skills in the dive pool and open water.

# Register Your Interest

If you wish to join us on our sailing adventures commencing in Spring 2021, we invite you to register your interest using the details below. Our experienced team, both on-board and ashore, are committed to ensuring our guests' journeys are seamless and enjoyable.
