PHILOSOPHY

WELCOME ON BOARD FREEDOM THAT TAKES YOU PLACES.

In the past, luxury was not casual and casual was not luxury. The EUROPA 2 is different. Enjoy **smart casual travel** and a discerning lifestyle in a modern, relaxed atmosphere – with no formal attire, fixed mealtimes or traditional seating plans in the restaurants on board **the best cruise ship in the world** according to the Berlitz Cruise Guide 2020.

With a maximum of 500 guests, you'll experience the **utmost in personal space** and **individual service** on your cruise with an exceptionally luxurious crew-to-passenger ratio of almost one to one. The EUROPA 2 blends **flexibility** and

comfort, visiting even small ports and far-flung places off the beaten track. The **great variety of routes** opens up whole new opportunities to discover unforgettable destinations.

SMALL SHIPS, GREAT FREEDOM

SUSTAINABILITY AND PREVENTION

WE TAKE RESPONSIBILITY.

In order to ensure that the habitats on our planet are preserved in the future, a responsible approach to our environment is indispensable. That is why the EUROPA 2 even sails under the 5-star-plus flag when it comes to environmental protection. It is also important to us that we comply with the highest hygiene standards so that we can protect the health of everyone on board.

ENVIRONMENTAL MANAGEMENT & COMMITMENT

Measures to increase our crew's and our passengers' environmental awareness – for example, training courses, tours of the engine room and lectures by experts.

Hapag-Lloyd Cruises offers sustainable excursions that take place on foot, by bicycle or using forms of transport with low CO₂ emissions. Alternatively, you can reach nearby natural environments and tour starting points with just a short transfer.

As a member of AECO, we promote responsible, sustainable and safe tourism in the Arctic.

The TUI Care Foundation harnesses the positive impacts of tourism to make a difference for people and communities in holiday destinations around the world. We as Hapag-Lloyd Cruises and our guests support the TUI Care Foundation in its endeavours.

CO₂ OFFSETTING

Offset the CO₂ emissions on your cruise: Hapag-Lloyd Cruises offers this in conjunction with the climate protection organisation myclimate. More information is available at www.hl-cruises.com/climate-calculator

RESOURCE MANAGEMENT

Modern seawater desalination technology for the treatment of water, as well as environmentally friendly disposal of sewage sludge.

100 % self-produced water.

Certified biological sewage treatment plants clean all wastewater that is produced.

Eco-friendly waste separation prior to disposal on land in accordance with the MARPOL regulations.

Power management and decreased electricity consumption thanks to energy-saving light bulbs and LEDs.

Ballast water management to ensure that flora and fauna are not carried into regions where they are not indigenous.

Hapag-Lloyd Cruises has been reducing unnecessary plastic on all its ships for many years already.

EMISSION REDUCTIONS

By voluntarily foregoing heavy fuel oil completely, we are reducing sulphur emissions by 80 % and particulate emissions by 30 %. Since 2020, the entire fleet has instead been using marine gas oil with a maximum sulphur content of 0.1 %.

Nitrogen oxide emissions reduced by 95 % thanks to SCR catalysts.

Below-average CO₂ emissions according to our EEDI certificate.

TBT-free underwater paint.

The bow thrusters and stabilisers run on environmentally friendly ecological oil.

The EUROPA 2 is equipped for cold ironing and makes use of this technology where possible.

SAFETY AND PREVENTION CONCEPT

KEEPING YOU SAFE.

The regular hygiene inspections on our ships comply with national and international healthcare standards. www.hl-cruises.com/travel-safely

ENERGY EFFICIENCY

Reduced fuel consumption of around 30 % thanks to optimised route management and avoidance of top speeds.

Reduced fuel consumption thanks to the newly developed hull.

RESPONSIBILITY AT OUR DESTINATIONS

Purchasing locally as a way of shortening our transport routes and supporting the local economy.

ENVIRONMENTALLY COMPATIBLE PRODUCTION

For the printing of all advertising material, FSC®-certified paper is used and the CO₂ emissions are offset.

Weltmeere bears the very personal hallmark of our chef and stands for creative culinary sensations – always interpreted in new and extraordinary ways, with vegetarians also catered for.

Whether Indian, Vietnamese or traditional Chinese dishes – Elements offers a feast for the senses of everyone with a penchant for the flavours of the East. Enjoy varied Asian cuisine, the aroma of lemongrass, seafood and lime – and Elements’ exotic, modern ambience.

SERENISSIMA

Exquisite classics and new interpretations of the flavours of the Italian Mediterranean: the Serenissima combines the best of Italy’s flavours and lifestyle. The house speciality is ditaloni con aragosta marinata allo zafferano.

SAKURA

Tarragon stands for great French cuisine and bistro classics, served in an art-deco-style setting. You can look forward to specialities that are at once simple and sophisticated, such as beef tartare prepared at the table. At the neighbouring Grande Reserve the focus is on fine wines, which you can taste in small groups under the direction of a sommelier (at a surcharge).

Relaxed enjoyment, also under an open sky: at the Yacht Club you can experience the finest cuisine and an unforgettable panoramic ocean view, from breakfast to dinner time. Fresh salads, antipasti from the buffet and freshly grilled specialities, fish, pasta and dishes cooked a la minute direct from the open chef's stations await you.

SANSIBAR

The view from the open-air bar across the ocean and the parties on the dance floor, with DJ music pumping, are simply unforgettable. Plus, it's also a fantastic location for a late breakfast or a small bite to eat in the afternoon or evening.
