CANAL DU MIDI, CANAL LATÉRAL À LA GARONNE

The **Canal du Midi,** with its lateral extension leading to the Garonne, runs for **500 km across southern France.** Passing medieval citadels, Cathar villages, castles and abbeys, the entire length of the canal is a masterpiece thanks to the many engineering structures along the way. The Canal du Midi is **listed as a UNESCO World Heritage Site** and allows you to appreciate the genius of its designer, Pierre-Paul Riquet, while introducing you to three centuries of history.

Our **base at BRAM** is in an ideal spot, just a few kilometres from **Castelnaudary,** famed for its cuisine, especially cassoulet (duck confit with beans). As you cruise towards the Mediterranean, you can easily get to Carcassonne. Magnificently restored by Viollet-le-Duc in the 19th century, **Carcassonne is listed as a UNESCO World Heritage Site.** With its 52 tall towers, Europe's largest fortress proudly looms over the lower town. From its double circle of ramparts the view is breathtaking.

Further west, our base in **Négra**, the green canal, fringed with **centuries-old plane trees**, will take you to Toulouse. The town is known as the Pink City because of the colour of its buildings. The Garonne flows through the city, which has features of outstanding historical interest, including the Romanesque Basilica of **Saint-Sernin**, one of its finest treasures. The Basilica was first built in 250 AD as a home for the relics of Saint Saturninus and became one of the most important places of pilgrimage in western Europe during the middle ages. Today it is the largest surviving Romanesque church in Europe.

blue waters of the Mediterranean.

From Argens, the Canal du Midi meanders through a typically Mediterranean landscape: vineyards, cypresses, pine trees and multi-coloured flowers scent the air against the background of chirping grasshoppers and cicadas. Under the shade of great plane trees, you'll enjoy a rich regional cuisine of succulent dishes and magnificent wines. Before you arrive in **Carcassonne** with its crenelated towers, you will already have got a taste of the South with its large white stone fortified towns, and its medieval villages like the ones at Trèbes or Puichéric. Before you reach the junction for Port la Nouvelle, you will pass Le Somail bridge. Narbonne was the biggest Roman city in Gaul. There you can find one of Europe's last five bridges lined with old and still inhabited houses. In the centre of the town, the Palais des Archevêgues and Saint-Just cathedral make up an exceptional ensemble. At **Béziers** the **Gothic** cathedral of St. Nazaire towers over the hometown of Pierre Paul Riquet. It is time to go for a swim in the clear

CANAL DU RHÔNE À SÈTE, LE LEZ, ETANG DE THAU, **CANAL DU MIDI, PETIT-RHÔNE**

As you leave **Lattes**, following the Canal from the Rhône to Sète, you're heading for the Petite Camargue, a wild and beautiful region. Here, you can witness one of the most beautiful sights that the local flora and fauna have to offer: the ballet of the flamingos, herons and bee-eaters is matched only by the sight of semi-wild horses and bulls, grouped together in herds or manades, living here in complete freedom...

Aigues-Mortes, a fortified village founded by Saint-Louis, rises up in all its splendour. You can explore Le Grau du Roi, an authentic Languedoc fishing village, Saintes-Maries-de-la-Mer, and Saint-Gilles with its superb abbey church.

From Cap d'Agde to the Camargue, just a narrow band of sandbanks separates the Mediterranean from the lagoons and canals you will follow. From Lattes, near Montpellier, you can enjoy the sea by berthing at Palavas-les-Flots. On the Bassin de Thau (Thau Lagoon), you follow the channel to reach Agde, a town founded by the Greeks.

You then approach the delightful village of **Bouzigues**, famous for its oysters, or Valmagne, whose Cistercian abbey rises up from among the vines.

Did you know?

The water in salt marshes turns pink due to the presence of a microscopic algae called Dunaliella salina. This algae naturally produces beta carotene, an orange pigment that gives the water its characteristic hue. Salt has been harvested in the Camargue region for millennia, especially at the Salin d'Aigues Mortes.

Discover Charente from our new base in Saintes!

The winding course of the Charente river is navigable for 147 kilometers from Angoulême to the Atlantic Ocean. Thanks to the 21 locks that you can operate yourself until Saint-Savinien, the river is very peaceful and offers an exceptional setting for navigation amidst vineyards and beautiful white-stone villages typical of the region. This waterway was once crucial for the trade of salt, brandy, and paper, thanks to the famous traditional barges called "gabarres".

Saintes is a bustling trading city with a rich Gallo-Roman heritage, as evidenced by its very well-preserved arena. Take the time to visit its Abbey, a true gem of Romanesque art.

The Charente is dotted with **pretty villages** with tiled roofs and beautiful Romanesque churches. Stops are recommended at Saint-Savinien, Chaniers, Bourg Charente, or Saint Simon, once a bustling river harbour and a major hub for famous gabarres.

Beyond Saint-Savinien towards Rochefort, tides and currents are significant, and navigation is reserved for the most experienced.

Then stop in **Jarnac**, the city of former French President François Mitterrand. At the end of your journey, moor in **Angoulême,** a former renowned paper manufacturing center, as evidenced by its museum, and now known for its international Comic Strip Festival.

CANAL LATÉRAL À LA GARONNE, BAÏSE

This region boasts 300 km of navigable waterways on rivers and canals, all rich in history. The region offers a rich cultural heritage and a variety of landscapes that will delight visitors.

Food-lovers should note that it has an outstanding reputation for its gastronomy and wine production: tomatoes and strawberries from Lot et Garonne, Armagnac, prunes from Agen, duck breast and wine from Buzet... Here is a sample of local delicacies to try during your cruise.

Leaving from the charming town of **Buzet sur Baïse**, the Canal de Garonne takes you to **Agen**, taking the **magnificent canal bridge** with its 23 arches and 549 m length. If you want to immerse yourself in medieval art, continue your cruise towards Toulouse and visit the famous 11th century abbey of Moissac: it is one of the most beautiful French architectural ensembles with its extraordinary Romanesque sculptures.

To enjoy the natural attractions of a lush green region, follow the Baïse river from Buzet. Enjoy a spot of fishing alongside fortified towns and gently sloping hillsides. In Nérac, history lovers and other curious visitors can discover Henri IV's château, built in the 15th century on the foundations of an old Gascon fort by Albret le Grand, Henri IV's greatgreatgrandfather.

UPPER LOT

Setting off from **the base in Cahors** you will encounter a series of extraordinary sites and the lush green meanders of the Lot, along 64 km of river, and pure enjoyment!

Cahors, a thousand-year-old city, with many attractions to explore: its historic centre where medieval monuments and neo-classical buildings sit side by side, the famous Valentré bridge, restored in 1880 and a UNESCO World Heritage site since 1998, its protective city wall or Saint-Etienne Cathedral.

On the Lot, you will be cruising into the heart of one of the most fascinating and wild regions of France. While travelling along the peaceful waterways, you will come face to face with cliffs and cirques, caves and dolmens, and fall for the charms of the locks that you have to operate yourself, rediscovering the actions and atmosphere of a past era. The timeless old villages of the Quercy, the alleyways, the mossy red roofs, St-Cirq-**Lapopie** like an "impossible rose in the night" as André Breton saw it, simply add to the charm of this lovely cruise.

The Lot is also a **gourmet's delight**. From the famous "black wine" of Cahors that brought wealth to the city in the Middle Ages, to foie gras and truffles, you can indulge in swimming and horseback rides as well.

CANAL DE BOURGOGNE, CANAL DU NIVERNAIS, YONNE, SEINE

Draped in the Côte Saint-Jacques vineyards, Joigny is rich in heritage and gastronomy. Located at the crossroads of the Yonne river and the **Canal de Bourgogne**, it is the ideal starting point for touring the region. If you choose the Canal de Bourgogne, you will cruise your way through an 18th century engineering marvel. Moor up near the Saint Florentin canal bridge and visit the church, the centrepiece of the town, which was listed as an historic monument in 1842. The statuary, sculptures and bas-reliefs have transformed the church into something of a museum for 16th century art; its 24 stained glass windows create an ensemble of lively colours with a rare harmony that blends perfectly with the architecture. Leaving Joigny in the other direction, the meanders of the river Yonne lead you through the 'bocage' landscape of Puisaye, with its fields and woodlands, and the Othe Forest: its hillsides, scattered with apple orchards, accompany you all the way to Villeneuve-sur-Yonne and Sens, overlooked by the wonderful Saint-Etienne cathedral, considered to be the most important gothic cathedral in France. Going back up the Yonne, discover **Auxerre** and its famous hillsides, producing Chablis and Auxerrois grape varieties. The Canal du Nivernais begins here. The wine villages spread out before you, such as St. Bris or Irancy, huddled between vineyards and

cherry orchards.

CANAL DU NIVERNAIS

Nivernais

Departure base: Corbigny

Originally conceived by Henri IV, the **Canal du Nivernais** was finally built between 1783 and 1842, and boasts some of the most glorious scenery on the French waterways. Connecting the basins of the Seine and the Loire, its two sides are very different from one another: from **Corbigny**, perched on a hill between two arms of the Yonne, towards **Decize**, the descent to the Loire winds through rich meadows grazed by the famous white Charolais cattle. The three arches of **the Colancelle**, the legendary centre of waterways tourism, allow you to cross the Morvan massif and are followed by a surprising **staircase lock:** a row of 16 locks in the town of Sardy-Les-Epiry.

The Etang de Baye adjoins the canal, from where you will soon glimpse the tall silhouette of the

castle from Châtillon-en-Bazois. The latter was rebuilt during the 15th century on the remains of the dungeon from which you can still see traces of in the building today. From Corbigny to Auxerre, the "Seine" side follows the Yonne Valley, and at times its course meanders through woods and forests of various species.

Châtillon en Bazois

CANAL LATÉRAL À LA LOIRE, CANAL DU NIVERNAIS, CANAL DE ROANNE À DIGOIN AND CANAL DU CENTRE

Departure base: Dompierre sur Besbre

Dompierre is a gateway to many discoveries. The banks are dotted with castles, abbeys and medieval villages. A magnificent piece of civil engineering, the **Digoin canal** bridge leads to the Canal du Centre, built in the 18th century, then to Paray-le-Monial where you can take a moment to discover the magnificent Romanesque clunisienstyle basilica. Dedicated to the Sacré-Cœur since 1875, it gives a complete picture, on a smaller scale, of how Cluny once looked. It was listed as a historic monument in 1846. By following the course of the Canal de **Roanne** à Digoin, a centre of French gastronomy and well-known for its earthenware and ceramics, you can enjoy the magnificent scenery along this canal that never strays too far from the Loire.

Cross the **Brionnais** region, famous for its Romanesque art and large number of churches and their very characteristic sculptural art. Charlieu Abbey, accessible by bike, is an old Benedictine **Abbey** that was associated with Cluny from 932 until the end of the 18th century.

Take the Southern part of the **Canal** du Nivernais and cruise through lovely countryside to the secret heart of the Morvan region, or visit Nevers, steeped in history. Heritage lovers will be delighted with the choice of places to visit: the Palais Ducal, Saint-Cyr Sainte-Julitte cathedral and a variety of churches.

CANAL DE BRIARE, DU LOING, LATÉRAL À LA LOIRE

"crottin de Chavignol".

The Canal de Briare was built during the reign of Henri IV. The spectacular locks at Rogny are no longer in use but well worth visiting. You sail through the wooded Puisaye region, dotted with lakes. North Briare, the Canal du Loing will lead you to the centre of **Montargis**, where the canal follows waterside streets lined with half-timbered houses. You then travel towards Nemours, its waters well stocked with fish, then

> Ferrières, Château-Landon and Moret-sur-Loing, which brings you into the heart of the Gâtinais region.

Travelling south from Briare, you cross the Loire over the remarkable Briare canal **bridge**, the work of Gustave Eiffel. The Canal Latéral à la Loire will then take you towards Sancerre and **Apremont-sur-Allier**, with its fine gardens. Created nearly 50 years ago by Gilles de Brissac, the gardens are the jewels in the crown of this medieval village, listed as one of the "most beautiful villages of France". White wines from Sancerre and Pouilly-Fumé take a place of pride here - simply delicious accompanied with some goat's cheese, a "bouchon" or

CANAL DU CENTRE, SAÔNE, SEILLE

Food-lovers and gourmets will be delighted by what's on offer at the Saint-Léger-sur-Dheune base. Cruising down the Canal du **Centre**, you'll go through some of the most **prestigious vineyards** in Burgundy like the Côte de Beaune and Côte Chalonnaise. Along the Dheune, Mercurey and Santenay valleys, where the 13th century church of St-Jean-de-Narosse overlooks the vineyards, Montrachet, with its famous white wines or Rully and its 12th century castle, all produce excellent vintages. On the hillside, Rully castle is a medieval fortress set among vineyards. The owner of the castle, a descendant of the Lord of Rully, welcomes tourists with a unique and authentic tour.

Returning back up the Saône, you cruise through a landscape of pastures where one of the most beautiful stopping points is Verdun-sur-le-Doubs, situated on an island at the meeting of the Doubs and the Saône. You can follow the course of the Doubs for 10 km until you reach Pontoux. Be sure not to miss St. Symphorien and Seurre with its Étang Rouge local history museum located in a traditional house.

Heading south, the Saône, one of the most beautiful rivers in France, will lead you to **Tournus** and its Romanesque abbey. Much of this former Benedictine monastery has been preserved and its abbey church is one of the largest Romanesque monuments in France. You can then cruise along the Seille to Louhans, classed as one of "the most beautiful detours in France" and awarded the "site remarquable du goût" label for its gastronomy, you can try the famous Bresse poultry.

On your way to Mâcon, take a detour on the small canal that leads you to Pont de Vaux in the Pierres Dorées district, a real gem with its ochre stone houses. In Mâcon, you can explore multicoloured facades, lively pedestrianised streets, great wines and gourmet specialities. Heading south, travel to Lyon and enter the town between the hillsides of Fourvière and La Croix-Rousse, with the charming Ile Barbe. Located in the middle of the Saône, its name, taken from Latin, means "wild island" because it was one of the last places to be occupied. Visit the beautiful Vieux Lyon district, get lost among the "traboules" passageways and have a meal at a typical Bouchon bistro...

PETITE SAÔNE, SAÔNE, CANAL DES VOSGES, DOUBS

If you want to discover one of the most beautiful rivers in France with few locks and many places for swimming, we suggest you head off for a cruise along **the petite Saône**. Villages with stone houses are strewn between the **picturesque stopovers**, such as Port-sur-Saône, Ray-sur-Saône and, towards the South, Auxonne. There are many regional specialties to try, including morel dishes in particular.

To the north, the **Canal des Vosges** passes through the forest to **Fontenoy-le-Château** and **Épinal**, famous for its prints. In the exhibitions at the town's Musée de l'Image (Print Museum), you will find old prints of Épinal of course, but also from all over the world sitting side by side with more current collections: adverts, educational or decorative images, contemporary artworks etc.

Explore the Doubs, cruise towards the **foothills of the Jura** along the Rhône-Rhine Canal. Arriving in **the citadel of Besançon** is splendid and is preceded by either a complete loop of the river Doubs or by a 394 m tunnel, which passes underneath Vauban's construction. Along your way, discover Baume-les-Dames and its historic centre. The church of Saint-Martin, the centrepiece of the town, is a listed historic monument.

CANAL DE NANTES À BREST, VILAINE, AFF, ERDRE, CANAL D'ILLE ET RANCE

When you set off from our **Melesse base**, you will be charmed by the river Vilaine. If you make your first stop in **Rennes** you can explore its Parliament, cathedral and half-timbered houses. Heading southwards, the bridge at Pont-Réan, with its nine arches offers a superb viewpoint over the river. As you approach **Messac**, do not miss the water-mills and windmills of the Breton moorlands or the numerous châteaux and castles in the area.

If you set off from the Saint-Martin-sur-Oust base, there are numerous options for river and canal cruising. Follow the Nantes-Brest Canal to reach the very beautiful river island known as the **Île aux Pies**. From there, take a highly recommended detour on the little river Aff to the lovely village of La Gacilly, with its flowerfilled alleys and magnificent botanical garden. Continuing on the Nantes-Brest Canal, you reach **Redon** with its Saint-Saviour abbey, a real waterways crossroads and the country of the magician Merlin! Heading towards **Nantes**, follow the Erdre valley, passing through Blain and the Gâvre forest.

To the west of Saint-Martin-sur-Oust, the Nantes-Brest Canal turns into one of the most beautiful navigable waterways. After Malestroit with its half-timbered houses, mossy pathways, a sublime quality of light, and villages of granite and slate, you reach the walls and daunting keeps of Josselin Castle. It's a magical journey!

CANAL DE LA MEUSE, MEUSE, CANAL DES ARDENNES, CANAL DE L'AISNE À LA MARNE

With ARDENNES NAUTISME, our partner in the Ardennes.

With its **650 km of cruising waterway**, the Champagne Ardennes region offers tremendous diversity and variety for inland navigation. As you follow the Meuse, you will encounter its delightfully crazy meanderings that will finally lead you to Charleville-Mézières, birthplace of the poet Arthur Rimbaud. The famous Place Ducale is a jewel of Renaissance architecture, whilst the Basilica of Notre-Dame swings between that same style and Flamboyant Gothic. Among the delights of the Basilica of Notre-Dame d'Espérance are the little back streets that surround it. Deeper into the Ardennes, there are delightful towns such as Fumay and Givet, known for their sausages. A little northern, you cross the Belgian border and can stop over in the lovely cities of **Dinant or Namur.**

Heading South in the direction of Reims, you take the **Canal des** Ardennes. This canal, 106 km long with 46 locks up to Berry-au-Bac, connects the Meuse river to the Champagne hillsides. You will be surrounded by beautiful landscapes all the way, especially in the vicinity of the **Montgon valley** and its 26 automatic locks.

Sailing East, you can **cruise from Pont-à-Bar to Verdun:** the quiet **Meuse valley** is 100km long with 22 locks only. Entering the region of **Lorraine**, you will be navigating far away from roads and buzzling cities, in the heart of nature. It is also a popular destination for fishing.

CANAL DE LA MARNE AU RHIN, CANAL DE LA SARRE, MOSELLE, CANAL DES VOSGES

Arriving at the **Lutzelbourg base**, you will see its **fortress** and its renowned cut-glass and crystal factories. On all itineraries, you will see houses with flower-covered, corbelled balconies, beautiful churches with bulb-shaped steeples, forged-steel gates and railings as you go along. Wherever you stop, you will find food specialities: sauerkraut and cooked meats as well as mouth-watering pastries made with red fruits, plums and damsons. Cruising westward you will pass through the **boat lift at Saint-Louis Arzviller**. This impressive feat of engineering looks rather like a bathtub full of water will sloping upwards. It does the work of 17 locks. From the west you reach **Sarreguemines by following the Canal des Houillères de la Sarre** (Sarre Coalmines Canal) in a wooded setting. Still going westwards, you can also get to Nancy, the natural home of Art Nouveau with its famous glassworks and the Place Stanislas, listed as a UNESCO World Heritage Site.

As you pass through **Toul**, a town fortified by the military architect Vauban, Lorraine opens up in front of you, with views of the meandering Moselle river with its wonderful landscapes and magnificent heritage. If you leave our base heading eastward, you can visit **Saverne** and the former episcopal castle of the Rohan family, built at the end of the 18th century. From there you can reach the very centre of **Strasbourg**, arriving just outside the European Parliament. You can then enjoy the beautiful, well-preserved Petite France quarter.

MÜRITZ. PLAUER SEE. MÜRITZ-ELDE WATERWAY

Set off to explore the beauty of Germany's lakes. **Fleesensee**, definitely one of Germany's most beautiful areas, offers a lovely and charming panorama. Not far away **Lake Müritz** is the perfect place for birdwatching: cormorants, cranes and even eagles. If you head towards **Waren**, you will find a lively town and a well-known marina. One of the great things about Germany's lakes is the way that each one leads into several others. You can alternate between taking walks, swimming, fishing or just chilling.

Head westwards towards **Plau,** which overlooks the lake of the same name. In the Karow district, visit the brick-built, **neo-classical palace** and the church with its stepped gables, a feature of real architectural interest. The **Müritz-Elde Waterway** that links the River Elbe to Lake Müritz, follows the course of the Elde and its meandering route.

The **town of Parchim** was built between two arms of the River Elde and is unusual because of its ancient town centre, its ramparts and its half-timbered houses. Many of its buildings, such as the former post office, make this a worthwhile town to visit before going back to cruise the lakes. Complete your stay by exploring **Schwerin and its famous palace**, well worth the journey just by themselves.

Müritz and Mecklenburg Departure base: Fürstenberg

OBERE HAVEL, DIE KLEINE SEENPLATTE, MÜRITZ, PLAUER SEE, MÜRITZ-ELDE WATERWAY

As you leave Fürstenberg, head westwards towards the great lakes of Mecklenburg. The first staging post on this inland waterway adventure will be **Rheinsberg** with its rococo palace. It was where Frederick the Great resided in his youth and served as a model for the famous Sanssouci in Potsdam.

Heading to **Mirow** you will discover its curious lake houses with their thatched roofs and then Lake Müritz, not forgetting the delightful town of Röbel, its streets filled with half-timbered houses. Heading westwards, you'll set a course for Wesenberg, memorable for its bridge, totally clad in wood, and then Neustrelitz and its baroque palace. Its orangery has today been converted into a concert hall.

On these varied and vast waterways, cruising requires more careful attention than on a canal, but you are well rewarded by being able to drop anchor in the middle of a lake and enjoy some of the purest water in Europe and natural surroundings that are wonderfully unspoilt. Do not forget to visit one of the many fish smoke houses for an exquisite speciality that gourmets will love.

OBERE HAVEL, TEMPLINER AND RUPPINER GEWÄSSER, FINOWKANAL, ODER, SPREE

Your first stop heading southwards, **Himmelpfort** (which translates as Heaven's Gate) is regarded as the birthplace of Father Christmas. It is also the place for fishing, where you can enjoy **delicious smoked fish.** Afterwards, take a detour via Lychen. The River Woblitz flows through the forest and feeds into the **Großer Lychensee** lake. This is one of the most beautiful routes in the area. The **River Havel** will lead you through a countryside that is peaceful because it is sparsely populated.

You should stop off at Regow. You can visit the organic farm here that offers a goat's cheese to die for. Then get off the beaten track by visiting the charming little town of Templin; within its fortifications, where Germany's former chancellor spent her childhood in sight of its towers.

From **Liebenwalde** to the east, the old Finowkanal (Finow Canal) twists and turns through lovely countryside on its way to a unique structure in Europe, the Niederfinow Boat Lift on the Oder-Havel canal.

If you have a boat license you can head westwards after Liebenwalde, where the lakes of **Neuruppin** are true natural oases, home to sea eagles, beavers and otters. Altruppin, the former capital, lies in a beautiful natural setting. Neuruppin, the

"modern" town, built in the 18th century, bears witness to the spirit of the age of enlightenment that inspired Prussia and left its mark on the region from **Berlin to Potsdam**. On your way towards Berlin you pass the Oder-Havel-canal before cruising through the parliament district, passing the Reichstag and its glass dome, until you reach the **Museums Island.**

Then head towards Kreuzberg and Oranientor, the workingclass districts where you will find the real heart of Berlin. For nature lovers, we recommend a walk along the many lakes with centuries-old forests and luxury villas on their shores.

A new houseboat region awaits discoverers: experience the Saale region from our new base in Bernburg!

The **dreamy little river Saale** is navigable from Calbe to Merseburg on a length of almost 100 km without a licence. Thanks to the 10 automatic locks and hardly any boat traffic, the river is **very quiet** and offers an exceptional setting for a houseboat trip in a varied region.

Numerous castles and palaces line the waterway, highlights are the **historic centers** of Bernburg, Halle and Merseburg. Take a trip back in time, discover old and new treasures in one of the numerous museums, stroll through the historic old town of Halle, hike through the beautiful porphyry rock landscape of Gimritz, along the steep **rock formations** of the Brachwitz Alps or simply relax on the water. The bike lane along the Saale also offers the opportunity for bike excursions.

Bernburg is in the center of Saxony-Anhalt and has a lot to offer. The district town of the Salzlandkreis looks back on a history of more than 1000 years. Our base is located directly at the foot of the romantic Bernburg Castle, also called "Anhalt's crown". Visit the Eulenspiegelturm and enjoy the overwhelming view of the Saale valley from the castle. The clean water of the Saale offers good swimming opportunities, Halle has its own bathing beach in the Saale.

Another highlight is the charming city of **Merseburg** with its impressive Gothic cathedral and the imposing castle which also houses the cultural-historical museum. The castle park invites you to linger.

From Merseburg you can easily reach and explore Leipzig, Leuna and Bad Dürrenberg by bike.

Holland is familiar and exotic at the same time, but there is one thing the whole world knows: the Dutch had to fight to win back their land from the water, driving back the sea and digging out amazing canals in its towns of character. Step on board and explore Holland at the easy pace of the canals: you will discover a fascinating region, known for its tolerance as well as its **passion** for rivers and canals. Holland has been a source of inspiration for some of the greatest artists, including Van Gogh, Vermeer and Rembrandt, and there is a huge range of museums and galleries to visit. Along your route, local mysteries unfold as you explore the wonderful canals and landscaped lakes. And this is the perfect place to enjoy some water sports and outdoor activities, such as fishing, canoeing, stand up paddle boarding, and of course swimming. The colourful scenes you encounter will make your Dutch cruise an experience you will never forget.

From Loosdrecht and its lake, follow the river Vecht and tie up in the beautiful city of Utrecht. Stroll along beside the terraces near the canals, explore hidden away shops in what used to be cellars and discover the authentic brown cafés, singed by the town's chimneys.

Departing from our marina in Alphen aan den Rijn, you can easily join the famous city of Gouda and its renowned cheese market. Do not forget to visit the old city of Leiden, home of the oldest Dutch University and birthplace of Rembrandt. A few miles away, stop over in Lisse and enjoy the incredible **Keukenhof** tulip garden, the largest in the

When sailing in the Netherlands, it is very easy to visit **Amsterdam** by boat, whether you start your cruise in Loosdrecht or Alphen. There are two convenient marinas just north of the city center. Sailing on river Amstel is simple enough with a little attention. In Amsterdam, take a stroll through **the Jordaan**, the trendy, former workingclass district, place of Anne Frank House. For an impromptu picnic, spread out your blanket in the Vondelpark, Amsterdam's "Central Park", a green haven in the heart of

Up to the north, towards **Edam** in **the Zaan region**, the landscape is punctuated by windmills. The extraordinary light at dawn will definitely encourage you to be an early riser.

So many unforgettable experiences are on offer in **the Venice Lagoon.** Sleepy villages, historic towns, elegant beaches, such as the Lido, all making up the treasures of the Veneto. Explore **Chioggia**, a superb town, linked to the mainland only by bridges, and with a delightful traditional fish market.

If you follow the canals you will reach Pellestrina, a delightful little fishing village, followed by Malamocco and then Venice itself. As you glide along the canals, you can cast an admiring glance at its historical heritage: the campanile in St. Mark's Square, the Basilica, the Doges' Palace and much more. If you head northwards, you will find a whole succession of small, romantic islands: Murano, with its craftsmen glassblowers, **Burano** and its lace-makers, **Torcello** with its Byzantine-style Basilica di Santa Maria Assunta. Make a detour to visit the Monastery on the island of San Francisco del Deserto, where seven Franciscan friars, who have taken a vow of poverty, live only on charity. Next, head to Treviso, on the River Sile, with lovely forests on its banks, or on the River Brenta, whose landscape inspired paintings by Canaletto. The sumptuous Palladian villas, most of which can be visited, are a real treat for anyone who loves architecture. As you cruise from Chioggia to **Grado**, you will find the most beautiful beaches of the Adriatic, perfect for a wonderfully relaxing break, away from it all.

Navigation is possible every day on the lagoon. On the Sile and the Brenta there are certain closures. The Brenta is recommended for experienced navigators.
Sea cruising is not allowed.
Grand Canal in Venice is not allowed to navigate.

Rendez-vous Fantasia, our partner, reserves for our customers free mooring points in particularly good locations, one in Burano, the other in Vignole, south of Venice.

From the Chioggia base our partner offers a wide range of boats: Pénichettes®, Europa and the New Con Fly models, Italian built boats with a length of 8.90m for 2 to 6 people, internal and external steering points and two cabins with double beds.

Ireland offers a superb network of inland waterways for those who love nature and historic sites. Our base in Carrick-on-Shannon is the ideal starting point to explore the Shannon, Ireland's longest river. It's a long way from any commercial traffic, navigable for 220 km, with only six locks, and has lakes that are sometimes real inland seas. You'll be bowled over by the beauty of the landscapes bordering the river. If you head northwards, you take the **Upper Shannon** towards **Boyle**, with its delightful little 12th century Cistercian abbey, before reaching Leitrim. Then you enter the **Shannon-Erne Waterway** which meets the Erne to the north, the other great Irish river. The canal, which is 63 km long, has been magnificently restored and takes you through a **dreamlike landscape** dotted with picturesque villages like Ballyconnel and Belturbet. You then enter Lough Erne, the country of "five lakes and five hundred islands"!

As you cruise southward, you cross Lough Ree to reach the **lively** town of Athlone, the Celtic site of Clonmacnoise and then **Portumna,** with its Renaissance castle. Our **base in Banagher** in County Offaly is ideally placed to **explore this Lower Shannon** area, including Lough Derg, the largest lake in the Irish waterway system. Lough Derg is famous for the idyllic little towns and villages that fringe its shores with small harbours with plenty of moorings. This is the place to go to "get away from it all" and to experience the peacefulness, the beautiful dramatic scenery and really good cruising waters.

Our 300 boats can be divided into two main families: the Pénichettes® with their delightful and timeless cachet, and the "river yachts" that are smart and streamlined.

The Pénichette® barge is the ultimate inland waterways boat, and the good news is that Locaboat has the largest rental fleet available throughout Europe! There are four distinct ranges of Pénichettes®, including our latest model that was launched in 2018, the Pénichette Evolution®.

You might also be tempted by our ranges of small yachts if you're looking for top-level comfort.

All our boats are equipped with what you need for a safe and comfortable cruise. Everything is carefully set out so that you can move around freely and space is optimised. There's also plenty of storage.

Good to know

Self-drive boat hire

In France, Locaboat Holidays has been authorised to offer boat hire WITHOUT the need for a boat licence. Once you have received your introduction to navigation rules and practical course to handle your boat, you will be given a permit for the duration of your cruise. In Holland, Ireland and Italy, no licence is required. In Germany, you can cruise over a large region without a licence. A boat licence is required only in Berlin and its surroundings for visitors from certain countries (see Germany pages).

Cruising

cruises suggested have calculated on the basis of a speed of 8 km/h on canals, 10 km/h on rivers. Above this speed you may damage the banks. It includes the time needed to pass through locks (15-20 minutes) and bridges, but not waiting time, whether planned or not. You may stop where and when you like, when it's not prohibited. The mooring pins on board (in France) give you total freedom. You can also stop at marinas or public wharves. In Germany, you can also anchor in a quiet bay to spend the night in splendid natural surroundings. In all countries, it is officially forbidden to moor up to trees.

You should follow every special instruction given to you by staff at the bases about your route (also see the information on the "destinations" pages in our catalogue).

Passing through locks

Passing through locks is a highlight of every cruise. Chat with the lockkeeper, buy local products, meet up with other boaters and pick up useful tips, or just use the time to soak up the local atmosphere. For manœuvring, the crew should include at least two people who are adequately agile.

Opening & closing times of

In France, there is no charge for locks. They are usually open from 9am to 7pm with a one-hour lunch break. They are closed on some public holidays, such as 1st May and 1st November and sometimes 14th July.

There are no lock closures at Baïse river, Canal de Roanne à Digoin and Charente river. Locks are generally automatic or worked by a lockkeeper. Some locks on canals have to be worked by the boat's crew, others are

automatic; passing through them is simple. You will receive detailed instructions on your departure day.

In Ireland and Germany, the locks are open every day. In Holland, April 27th is public holiday (King's Day). Amsterdam is not accessible by houseboat on this day. Navigation restrictions and specific lock opening schedule before mid-April and after mid-October. In Italy, it is possible to cruise every day on the lagoon. On the Sile, Po and Brenta some locks are closed on certain days. Those are mentioned in the Captain's Handbook.

Open water

The Etang de Thau in Southern France as well as the Müritz and the Plauer See in Germany or the loughs in Ireland should not be crossed when winds are stronger than Beaufort Force 3. Our staff at the departure base will inform you about current situation and give you instructions.

Floods

On rivers (but not canals) there can be floods in spring and occasionally in autumn. In case of flooding, we may have to restrict your cruise to canals only or possibly switch departure base, but it should not be necessary to cancel your cruise. You should check on river levels before setting out for your holiday.

Maintenance work

Some waterways have "stoppages" when they are closed for maintenance. These are mainly scheduled for the winter months but occasionally they occur during the hire, although season. Dates are announced in early March. Certain urgent works may become necessary at short notice. Please check with our reservation staff.

Departure and return days

Locaboat Holidays offers flexibility over start days and durations. Several departure days are possible: Friday, Saturday and Monday. Check in time is between 2pm and 6pm. Paperwork and instruction take place during this period. Return days are also on Saturdays, Mondays or Fridays between 8 am and 9 am (for example: 1 week = 7 nights from Monday 2-6 pm to Monday 8-9 am). Hire duration is usually for one week or you can also cruise for periods of 10/11 days and short stays.

Bicycles

Bicycles are placed in the skipper's care and are his/her responsibility. They are hired out in good working order, are clean and fitted with an antitheft device. The hirer must check the condition and working order of the bicycles when he takes charge of them. Helmets are only provided for children. The hiring cost, including theft insurance, which is displayed at each base, is payable in advance. In the event of loss, damage or theft, Locaboat will invoice the hirer the costs of restoring, repairing or replacing of the bike, according to the tariff currently displayed at the base. Locaboat accepts no liability for any accident which occurs on a bicycle that has been hired or provided, due to misuse or carelessness by

One-way cruising

You will find in the Captain's Handbook full details of how to return to your car. We draw your attention to the fact that oneway cruising is an optional feature which can never be totally guaranteed owing to the possibility of cancellations or other difficulties. Therefore, the availability of a One-way cruise and its direction can only be confirmed 48 hours before departure.

Insurance

The hire price includes insurance cover in case of damage caused by the boat, damage to the boat and the skipper's third party liability. Guests, their personal effects and their own third party liability are not included. (See general conditions, §Insurance and Damage Deposit).
