EXPERT NAVIGATION

Experience adventure as you come upon scenes of ice blue glaciers, jagged peaks, and ice floes or on rocky shores traversing the remote reaches of Antarctica. Polar Expeditions here reveal wonders that few have seen. Travel requires a polar-class vessel equipped with Zodiac boats and staffed with expert expedition leaders, who provide daily briefings on board and guide adventures ashore.

EXPEDITION TEAM

Every Polar Expedition is led by a team of up to 17 professionals who have explored from Antarctica to the Arctic, and remote destinations the world over. Their expertise and leadership ensure that each expedition inspires and enlightens you while protecting pristine environments.

With a mix of wilderness guides, naturalists, mountaineers, biologists, conservationists and other experts, you will gain profound insight into your explorations, giving you a greater appreciation and sense of wonder for the wildlife and ecosystems.

PURPOSE-BUILT YACHTS

Our Polar Category C and Ice Class 1B yachts are equally adept at navigating remote polar regions and sailing upriver in to the heart of cities like London and Seville. Decks just 30 feet above the waters surface combined with virtually silent hydro-jet propulsion allow for up-close wildlife encounters and scenery viewing without disturbing the environment, while the yachts' hybrid power management and dynamic positioning systems protect pristine ecosystems by maximizing fuel efficiency and minimizing the use of anchors.

CAPTAINS CHOICE

Your Captain will expertly navigate ice floes and ever-changing sea and weather conditions to ensure you experience the most from your expedition. We encourage you to embrace a spirit of adventure, spontaneity and flexibility as your Captain works with your expedition team to determine possible sites for shore landings and Zodiac safaris. While itineraries serve to guide your exploration, all routes are always subject to change in order to prioritize safety and create the optimal expedition experience for all guests.
