The True Colours Of The Caribbean

Beaches, palms, the sea – what else do you need? The Caribbean has been a dream destination for so long that it often seems overshadowed by its own clichés.

Off the beaten track you'll find lush tropical forests full of life, warm-hearted and welcoming people, and a vibrant cultural mix that begins with the ancient Mayan sites of Central America and stretches far beyond to the rhythms of reggae.

We invite you to discover the true colours of this dream-like region aboard the SEA CLOUDs – to soak in its vibrancy in a way large ships simply cannot offer. In small harbours and secluded bays. Through personal encounters. And under full sail.

*The
Rhythm
Of The
Caribbean*

Welcome to the home of relaxed living. Set your inner clock to "Island Time" and savour the vibrant blend of passion and easy-going serenity.

Who could resist such passion for life? On these sun-drenched islands, everything just feels more vivid: the colours, the laughter, the warmth. The SEA CLOUDs take you straight to their very heart.

*Reggae,
Rhythm,
Relaxation*

Life is a dance. Whether soca, calypso or salsa, once you've heard the Caribbean, that's when you feel its spirit. The steel drums start up, and your feet can't resist tapping.

The passion is not just in the music, it's in the cuisine. Pimento, cinnamon, cloves and nutmeg give Caribbean cooking its distinctive savour, transforming every meal into a carnival for the senses.

Engine off, freedom on! When the huge sails catch the wind, letting go comes naturally. Over the bow, the shining expanse of the ocean unfolds, fresh sea air fills your lungs, and everyday life drifts away beyond the horizon.

On the SEA CLOUDs, the sails are still set by hand, in the old seafarers' way. Nimble mariners climb the shrouds to unfurl the canvas. Fancy taking the helm yourself for a taste of adventure?

*Under
White
Sails*

Like visiting a cherished friend: aboard the SEA CLOUDs, enjoy the inimitable flair of a private yacht.

On board, the romance of the sail, stylish ambience and top-quality hotel comfort combine to create a unique travel experience. For those who value the personal and appreciate that individual touch.

Sailors by nature, hosts at heart – the passion of our crew for everything they do can be felt in every corner of our ships, from the restaurant to the bridge, from the topmast to the engine room.

*Where Travel
Becomes A
Way Of Life*

A photograph of a sailboat deck at sunset. In the foreground, a thick, braided rope is coiled around a brass pulley. The rope extends across the deck towards the right. In the background, a large sail is visible, partially obscured by the rigging. The sky is filled with soft, golden light from the setting sun, creating a warm and serene atmosphere. The deck is made of wooden planks, and various pieces of sailing equipment are visible in the distance.

*The
Yachting
Lifestyle*

On board, life unfurls itself outdoors. Greet the new day with a coffee under canvas, enjoy the sunset with a sundowner on deck, then wind down beneath a canopy of stars.

With one deep breath, everyday life drifts far away. Amid warm colours and exquisite timbers, it's easy to immerse yourself completely in our ships' own rhythms.

Favourite spot sighted: aboard the SEA CLOUDs, you'll find your perfect place to unwind – from the sun deck to the Lido Bar, down to your own favourite deckchair.

Dive Into Laissez-Faire

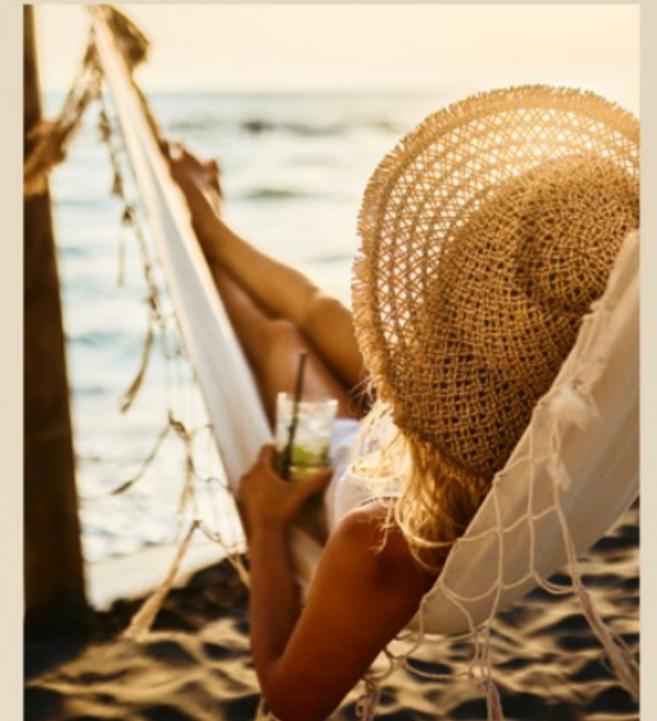

Between palm-fringed beaches and white sails, you can leave the hustle and bustle behind. Kick off your shoes and smile, let everything else slide – the ease of the yachting life is infectious. Among like-minded sailing aficionados from across the globe, life unfolds in a world of total relaxation.

Throw off those winter blues. As soon as your feet touch the soft, velvety sand and the sun gently caresses your skin, that long-awaited summer vibe returns in no time.

An aerial photograph of a tropical beach. The water is a vibrant turquoise color, and the sand is a light, bright white. Two people are swimming in the shallow water near the shore. The man is wearing yellow shorts, and the woman is wearing a yellow bikini. The water is clear, and the sand is visible beneath the surface. The overall scene is serene and idyllic.

*Simply
Closer*

The SEA CLOUDs have been plying the Caribbean for 40 years and know every hidden gem. As they weigh anchor against a breathtaking backdrop, the next dream-like beach is just a Zodiac ride away.

Feet dipped in crystal-clear waters, a cool cocktail in hand, and ambient beats in the background. At our beach barbecues right on the sand, life is there to be savoured.

A Dream Spot To Dive Into

Where larger cruise ships have to turn around, the SEA CLOUDs sail straight into bays that look like they've been painted. This is the way to get truly close to the land and its people, far beyond any postcard clichés.

You could write novels about the waters of the Caribbean: deep blue and turquoise, pleasantly warm yet wonderfully invigorating. But the best part is simply diving in – whether swimming, snorkeling, or on one of our stand-up paddleboards.

A sloth makes its lazy way through the branches, howler monkeys greet the morning, and colourful macaws flit through the canopy. With its more than 160 reserves and national parks, Costa Rica is a true oasis of biodiversity.

Dense tropical forests reach down to the waterline, right alongside the locks of the Panama Canal. This is the thread that connects not only two oceans, but also worlds – from pristine natural edens to the urban skyline of Panama City.

The Lesser Antilles also reveal their tropical splendour. Volcanic lakes mirror the sky, waterfalls roar through the jungle, and plantations fill the air with the scent of countless spices. Here, life bursts forth at every turn.

*The
Caribbean
In Green*

Explorer's Tour In The Tropics

Relaxation or adventure?
Beach or rainforest? Luckily,
you don't have to choose.

Between the Lesser Antilles
and Costa Rica, thriving worlds
await, featuring mesmerising
botanical gardens, lush cloud
forests, and a spellbinding
profusion of exotic animals
and plants.

Thrill-seekers will find adventure on hiking trails through lavish tropical landscapes, on canoe trips through mangrove-lined rivers, or high above the treetops on a zipline.

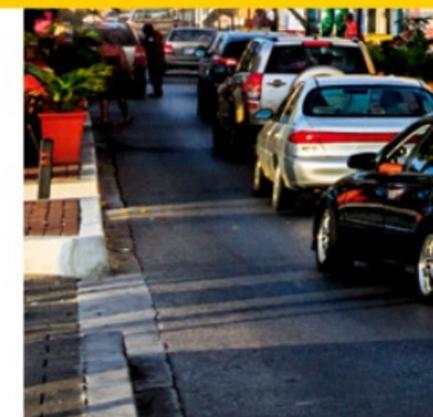

Just let yourself drift... Along the SEA CLOUD routes, the trade winds waft you not only to dream beaches but also to a wealth of cultural sites – from mysterious Mayan ruins to brightly coloured colonial facades.

With its bold colours and remarkable forms, Panama's Museo de la Biodiversidad provides a strikingly unexpected contrast.

Designed by renowned architect Frank Gehry, it stands as a proud tribute to the country's extraordinary natural diversity.

*A
Mosaic
Of
Cultures*

*Colours And
Traditions, As
Vivid As A
Kaleidoscope*

The Caribbean is proud to celebrate its long cultural history. On the ABC Islands, in Cartagena, and in the old town of Panama City, European settlers left colourful traces in the architecture. Here, colonial heritage meets vibrant joie de vivre to create a rich tapestry of colour and diversity.

*Every Day
A True
Adventure*

Fresh perspectives open up when you join the crew to climb the shrouds. The vista over the deep blue ocean is quite simply breathtaking.

The world's most beautiful pool: aboard the SEA CLOUDs, the sea is always close at hand rather than a dozen decks away.

Fancy a cool-down? When our towable tubes catch the waves, the spray flies – and adrenaline seekers are truly in their element.

A stop for a swim mid-ocean, yoga beneath an open sky, a lecture, or a trip to the bridge – on board our tall ships, boredom is simply not an option!

Moments That Stay With You

On our photo safaris, you can circle the SEA CLOUDs in the Zodiac speedboat, as the majestic sails reveal ever-changing perspectives – impressions you'll never forget.

*The
Play Of
Nature's
Colours*

In these waters, sunrises and sunsets are moments of magic. The colours of the sky are constantly changing and always a wonder to behold. Whether with a morning coffee or an evening aperitif, they form the backdrop to your own personal ritual.

When the waves whisper softly at the bow and the light gently warms your skin, thoughts are cast adrift into the vastness. In these moments, nothing else matters.

Balmy summer air, a drink in hand, and live music under the stars – on board, life follows its own evening rhythms.

*When Dusk Turns
Into Melody*

In the evenings, the yachties come together at the legendary Bitter End Yacht Club or at Foxy's Beach Bar. They meet up to savour a Painkiller cocktail right on the beach. This is the Caribbean distilled to its essence.
